## 💡 Overview

KillJoy was supposed to be the crown jewel of Creative Force Wrestling in 2005 — the fearsome face that would haunt a new generation of pro wrestling. But the doors never opened. The tapes never rolled. CFW flatlined before the first scream.

So KillJoy left.

What followed was a 19-year career of carnage and legacy in Japan. A six-time **StrongSoul Heavyweight Champion**, a mythic figure who mixed *strong style brutality* with *pure horror aesthetic*. He fought monsters, legends, and deathmatches — and survived all of it.

Now, two decades later, he returns to the *graveyard of his past*, not to debut... but to **reclaim**.

## **Wrestling Style**

- Strong style brutality with psychological horror elements
- Power-based offense, unflinching endurance, rarely speaks
- Unshakable presence — once he's in the ring, the *temperature drops*

---

## **Signature Moves**

- **Spinal Trap** – Delayed back suplex dropped into a gutbuster
- **Scream Engine** – Repeating running lariats in the corner, each one heavier than the last
- **Tomb Hook** – Hooked punch to the throat followed by headbutt combo
- **Blood Parade** – Short-arm clothesline > mounted elbows > stare into the void

---

## **Finisher**

### **The Laughing End**

*An inverted GTS — lifts opponent, drives their face down onto his rising knee*

It doesn't end matches — it *finishes stories*.

---

## **Career Highlights**

- **6x StrongSoul Heavyweight Champion (Japan)**
  - Feared and respected in **Steel Fang Dojo**, where he trained in silence
  - Fought in *Death Circus '13*, considered the most brutal barbed wire match ever held in Tokyo Dome
  - Broke the legendary **Red Mask's** undefeated streak at **Iron Harvest XV**
-

## **The Mask**

The origin of KilJoy's mask is unknown. Some believe he wore it during the final days of CFW's original attempt — never taking it off after the collapse. The current version is cracked, rusted, and visibly scarred — like the man underneath.
